

Hello,

I'm writing in regard to the possibility that a LPFM station could take priority over our regular FM translator service here in Southern Oregon. It is my understanding this could negatively impact our K-LOVE station. This station is outstanding and provides my family with inspirational, Christ centered music which we listen to all the time. It is the only station our family enjoys. To not have this station here in Southern Oregon would not only be a huge disappointment to my family, but to many other families in our valley. K-LOVE is a station that parents can rely on for decency and positive music. It provides our children with the opportunity to hear contemporary Christian music as an alternative to what is available on local pop stations. Please do not allow this change to occur. Thank you for your time.
